MAHIR KAPUR

Senior 3D Artist | 3D Generalist — Real-Time, AR/VR & Metaverse Visualization

Gurugram, India | +91 8221955505 | mahir.kapur1004@gmail.com | LinkedIn: mahir_kapur_LinkedIn

PROFILE

Senior 3D Artist / 3D Generalist with 5+ years of hands-on experience delivering photorealistic real-time and path-traced 3D content across Unreal Engine 5, Blender, and Substance Painter pipelines, including AR/VR asset work for Amazon's immersive commerce and virtual try-on initiatives. Strong technical foundation in high- and low-poly modeling, texturing, rigging, and lighting, CAD retopology, PBR shading, Lumen global illumination, and scalable WebGL-ready configurator pipelines, paired with a drive to raise visual quality and production efficiency through emerging and AI-assisted workflows.

CORE COMPETENCIES

Blender & Substance Painter (High/Low-Poly Modeling, Texturing, Rigging, Lighting) • Unreal Engine 5 (Lumen & Path Tracing) • AR/VR & Metaverse Asset Pipelines • Environment & Lighting Art • PBR Shading & Materials • CAD Retopology for Real-Time • WebGL / Real-Time Optimization • 3D Configurator Development • Cinematic Look Development • Maya / Unity

EXPERIENCE

Senior 3D Artist – BiUp.ai (CarDekho Group)

Sep 2024 – Present | Gurugram

- Own end-to-end 3D asset creation, environment, lighting, and shading quality for real-time visualization projects, executing advanced Unreal Engine shading techniques to achieve realistic textures and lighting.
- Produce high-end cinematic shots using path tracing and Lumen GI in Unreal Engine, defining the visual benchmark for product design showcases across global brand clients.
- Take end-to-end ownership of CAD-to-real-time pipelines — retopologizing CAD data into optimized quad meshes (high- and low-poly) and establishing scalable scene structures for WebGL deployment.
- Develop and deliver interactive 3D configurators for in-store displays across major global brand clients, enabling dynamic, customer-facing interaction.
- Rig 3D models to build fully functional, production-ready assets supporting detailed animation and simulation deliverables.

3D Artist – Metadome.ai

Feb 2024 – Sep 2024 | Gurugram

- Modeled, textured, and lit Unreal Engine-ready 3D assets and product configurators for brand clients including Nissan, HERO, and Royal Enfield, from concept through client-ready delivery.
- Applied advanced lighting, shading, and modeling techniques to raise realism and visual quality across deliverables.
- Partnered with the creative team to translate project requirements and briefs into production-ready 3D content meeting client expectations.
- Integrated finished assets into Unreal Engine and other real-time engines, ensuring seamless functionality and performance.

3D Artist – NextGenSPL

Mar 2023 – Jan 2024 | Noida

- Built immersive 3D models and environments for a diverse client base, translating brand requirements into real-time-ready visuals.
- Led environment and product visualization for Sleepy Cat (mattress brand), creating virtual showcase environments.
- Collaborated with client Hawkins to push modeling fidelity, delivering intricate, realistic 3D assets.

Junior 3D Artist – Amazon

Dec 2021 – Dec 2022 | Hyderabad

- Modeled and textured highly realistic, high- and low-poly 4K photorealistic 3D assets for immersive AR & VR 360° viewing experiences.
- Built 3D assets for virtual try-on experiences for footwear, supporting early Metaverse-facing initiatives.

Designer – House of Babas

Apr 2020 – Sep 2021 | Remote

- Managed social media presence and designed product-line graphics, building creative and client-facing communication skills.

TECHNICAL & SOFT SKILLS

Software: Blender, Substance Painter, Unreal Engine 5, Maya, Unity, Adobe Creative Cloud

Techniques: High/Low-Poly Modeling, Texturing, Rigging, Lighting, Lumen GI, Path Tracing, PBR Shading, CAD Retopology, WebGL Optimization, Real-Time Configurators, AR/VR & Metaverse Asset Pipelines

Soft Skills: Creativity, Effective Communication, Attention to Detail, Problem-Solving, Resilience, Adaptability, Teamwork, Cultural Awareness

EDUCATION & TRAINING

Animation, Interactive Technology, Graphics & Design — Chitkara University, Rajpura, Punjab (Mar 2019 – Aug 2022)

Unreal Engine Bootcamp — Pearl Academy, Online (May 2023 – Jul 2023)

Advanced Maya Techniques (Udemy) — Unreal Engine Practicum: Environment Art for Games in UE5

Languages: Hindi (Native) • English (Native)
